Here is a society item from the Lardburg Liberal: "Yes Chas has gone to California as chaperone for a trainload of cattle."

John H. Pemberton says he has found a nickel mine in the Santa Rita and leaves tomorrow to commence location work on it.—Star.

The friends of Judge Eb Williams of Nogales, are pushing his candidacy for the federal judgeship of the first district to succeed Judge Bethune.

The clerkship of the incoming board of supervisors is an official plum that many would like to pluck, but just who the successful candidate will be is yet a question of doubt.

The Mexican government has notified Department of State that American cattle round upon Mexican soil can be made under the same restrictions applying to Mexican round upon American soil.

The legislature stands ten Democratic and two Republican in the council; in the assembly 22 Democrats and two republicans.

Jake Trowbridge who for these many years has been connected with the Arizona Mail and Stage Co has sold his interest in the property to A. L. Brooks, one of the partners and who will assume charge on the 1st. Jake is one of the best known stage drivers in the west and as a handler of the ribbons has few equals. He expects to leave shortly for a visit to Mexico on business.

An eastern simrod came to Tucson to show the boys how to kill bears. On his first hunt among the forests of the Santa Cruz he was startled by a horrible growl which rose from near his feet. Up jumped a cottontail rabbit, and off went both barrels of the delectable hunter's shot gun, in the air. He had the buck again and it led him to believe that the rabbit was a bear and had wings.—Citizen.

Dr. Gordon and wife who returned yesterday from the City of Mexico both had a most enjoyable trip. The doctor participated in the deliberations of the Pan American Medical congress and states all the medicines were royally entertained. The Prospector is indebted to the doctor for several Mexican curios which are highly prized, among which is a unique paper weight of onyx which is now lying before us. Dr. Gaff also kindly remembered us with a beautifully carved case on which the coat of arms of our sister republic being artistically cut in a decorative manner. Dr. Gaff remained in Mexico to spend a time traveling about to see the wonders of the land of manyans.

## DEAD OR ALIVE.

\$1,000 Each for the Capture of the Black Jack Bandits.

Postoffice Inspector Waterbury who is now in this city, says the Republican, has for the past two weeks directing the pursuit of the notorious band of outlaws who have been terrorizing the people of the eastern section of this territory and those of New Mexico. When Mr. Waterbury reached New Mexico and Arizona and began investigations of the depredations of the gang headed by Black Jack, he found that the border reveals had held up and robbed six stages, four post offices and several railway depots. The inspector issued a notice offering a reward of \$1,000 for each of the robbers whether captured or killed.

## Two Lives Saved.

Mrs. Phoebe Thomas of Junction City Ill., was told by her doctors she had consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery cured her, and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which there are samples that prove the wonderful efficacy of the medicine in coughs and colds. Free trial bottles at Tombstone and Bisbee drug stores. Regular size 50c and \$1.00.

## FROM PEARCE.

Mammoth Ledges Uncovered—Good Results.

From parties in from Pearce it is learned that work on the Six Mile Hill property shows a ledge on the surface which truly can be classed a mammoth one for the uncovering of a well defined stratum of ore over 30 feet wide carrying milling ore in paying quantities is not to be encountered daily. Thuefar the work done has been an open out on the width and assays show an average of \$20 per ton. When it is demonstrated that this gigantic ledge goes down the owners will have untold wealth at their command.

The Gold Cliff claim of Johnson and Fitts located on a neighboring hill of the famous Pearce bonanza is forging to the front and at 76 feet is proving an astonisher. The ledge here by actual measurement is 11 feet and the record of assays from the surface at intervals to the bottom bear out the theory in undisputable facts that as depth is attained the better results are obtained. This claim is unhesitatingly proclaimed by all mining men in the district to be a coming producer and if indications and ore count for aught the mine certainly has a most brilliant future.

## Marvelous Results.

From a letter written by Rev. J. Gundersman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rivers Junction she was brought down with Pneumonia, succumbing La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Tombstone and any Drug Store. Regular size 50c. \$1.00

At Pearce is a saloon called the "Bucket of Blood" notwithstanding that the name is calculated to strike terror to the average citizen the refreshment dispensary appears to do a rushing business.

Robert P. Woodward, a New York humorous writer, started out Monday to ride to San Francisco on a donkey to fulfill an election wager. He as well as the donkey is to wear goggles and pass through as many towns on way as possible and in every way to exert himself to the utmost in the way of making an ass of himself. We suggest that when Woodward has traversed half of the distance to get of and let the donkey ride.

## GEN. WHEATON'S REPORT.

Calls Attention to the Pesticiferous Apache.

Gen. Wheaton, of the department of the Colorado in his annual report to the secretary of war, devotes considerable attention to the suppression of the Yaqui Indians, or Santa Teresa fanatics who attacked Mexican Nogales in August last, and to the raids of the apaches. The labor performed in the effort to rid Arizona of these pestiferous renegades, he says, can be appreciated when he states that in a single year his troops in Arizona marched 42,457 miles on this duty. Gen. Wheaton reports that Fort Stanton, New Mexico, has been abandoned. He recommended minor improvements at Fort Bayard, New Mexico, and Fort Douglas, Utah, and the rebuilding of the posts at Fort Grant, Arizona, and Whipple Barracks, Arizona. He also urges that the attention be called to the disparity between the pay of adjutant-general's clerks compared with the pay of clerks in the supply department.

## The Discovery Saved his Life.

Mr. G. Caillouette, Druggist, Beaver ville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried all the physicians, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial the Tombstone Drug Store.

Fresh Fish is received every Thursday at Noble's.
